The survey used dining out in restaurants,

INCREASE
STAY THE SAME
DECREASE
N/A

entertainment and travel as examples of discretionary spending.

## Percentage of Consumers Who Said Majority of Transactions Made Online

TransUnion's Consumer Pulse survey of 10,557 adults was conducted November 1-November 15, 2022 by TransUnion in partnership with third-party research provider, Dynata. Adults 18 years of age and older residing in Brazil, Canada, Colombia, the Dominican Republic, Hong Kong, the Philippines, South Africa, the UK and the US were surveyed using an online research panel method across a combination of desktop, mobile and tablet devices. Survey questions were administered in Chinese (Hong Kong), English, French (Canada), Portuguese (Brazil) and Spanish (Colombia and the Dominican Republic). To increase representativeness across resident demographics, the survey included quotas to balance responses to the census statistics dimensions of age, gender, household income and region. Generations are defined as follows: Gen Z, born 1995–2004; Millennials, born 1980–1994; Gen X, born 1965–1979; and Baby Boomers, born 1944–1964. Please note some chart percentages may not add up to 100% due to rounding or multiple answers being accepted.
